

U.S. – India Energy Partnership Summit 2012

Fostering Innovations for a Sustainable Future
24–25 April 2012, Washington D.C.

As the United States and India make concerted efforts to embrace green technologies, the third edition of the U.S.-India Energy Partnership Summit organized by TERI-North America and Yale University, attempts to take forward the deliberations on clean energy held during Delhi Sustainable Development Summit 2012 to the next level and pave the way for building further negotiations at the Rio +20 Summit to be held in June this year.

The Summit will bring together leaders, corporate visionaries, academics, and professionals from the U.S. and India to discuss and understand ways in which both countries can collaborate to usher in an energy efficient future.

Focus Areas

- Clean Energy Innovation for Mitigating Climate Change
- Policy Initiatives to Foster US-India Energy Cooperation
- Removing Barriers to Technology Transfer
- The Economic Imperatives for Innovation and Opportunities for Business
- Innovation for the Bottom of the Pyramid
- Innovation for an Energy Secure Future

Registration open!
