Special Features

Co-hosted by the Energy Transitions Commission (ETC), Indian National Academy of Engineering (INAE) and The Energy and Resources Institute (TERI), the day-long event will feature:

Discussions on 'Global Energy Transitions'; 'Indian Electricity Transitions' and 'Indian Renewable Challenges'

Presentation of the ETC consultation report – Shaping energy transitions; TERI's report on 'Indian Electricity Sector'; and INAE's report on 'Priorities for Enhancing Renewable Energy Development in India'

About ETC

We are a diverse group of leaders from public, private and social sectors. We are energy users and suppliers, researchers and international organisations, with experience in various geographies. Together, we aim to accelerate change towards low-carbon energy systems that enable robust economic development and limit the rise in global temperature to well below 2°C. We hope to build a trusted fact-base and coalition to support energy policy and investment decision-making across countries and sectors.

Lord Adair Turner
Chair

Dr. Ajay Mathur
Co-Chair
