Dr. Muniram Budhu is a full Professor in the Department of Civil Engineering & Engineering Mechanics at the University of Arizona. He obtained his Ph.D in Geomechanics from Cambridge University, England. He was Head of the Civil Engineering Department at the University of Guyana and then served as a faculty at various universities including McMaster University in Canada and State University of New York at Buffalo. He was a Visiting Professor at St. Catherine College, Oxford University and a Guest Professor at the Swiss Federal Technical University (ETH, Zurich), Switzerland. He is the author of several dozen papers on a variety of subjects and of two popular textbooks on Soils Mechanics and Foundation Engineering. Dr. Budhu has been the Principal Investigator for the creation and deployment of a digital library on Geotechnical, Rock and Water Resources Engineering (GROW, www.grow.arizona.edu). GROW is one of the digital libraries within the US National Science, Engineering and Technology digital library (NSDL, www.nsd.org). Dr. Budhu's interest is on extending the range of services offered by digital libraries to advance curriculum and content development in education.
