Abhisek, on the surface, is an accomplished IT Leader, with 10 years' experience spanning across Digital technologies and Healthcare. He considers himself as an Innovator and evangelist, who constantly looks at harnessing technology to solve Business and Social problems. He has leveraged his expertise to create, enduring and sustainable value for various Fortune 500 corporations across the globe.

Abhisek was selected for Fulbright – Nehru scholarship in 2013. As part of the program, he got a chance to, learn cutting-edge concepts in leadership & innovation and interact with leaders from successful enterprises like Tesla, Google and Bombardier. He has been able to leverage the learnings to enrich his personal and professional life.

Abhisek has received his BE in Electronics and Communication Engineering from BPUT and MBA in Marketing from Xavier's Institute of Management (XIMB). He is passionate about research, especially in consumer behavior. He is currently pursuing his Fellow Program in Management (PhD equivalent) from XLRI, Jamshedpur. His research interests include areas such as, Anti-consumption, Sustainability and Youth Subcultures. He is currently based out of Hyderabad. In his free time, Abhisek loves to cook, read and visit wildlife sanctuaries.
