Nicolas Spyratos received his BEng degree from the National Technical University of Athens, Greece, his M.Sc. degree from the University of Ottawa, Canada, and his Ph.D degree from Carleton University, Canada. He worked as a researcher for Bell-Northern Research in Canada, and for INRIA and the National Research Council (CNRS) in France, prior to joining the University of Paris South as a full professor in 1983, where he is currently heading the database group.

His research interests include databases, conceptual modelling, information integration (mediators, data warehousing), and digital libraries. He is the author of over 150 articles in international journals, books and conferences, and has supervised the work of 17 PhD students, in these areas. He has also served on the program committee of over 60 international conferences.

He has participated in several national, European and international research projects and has served as evaluator for the NSF and the European commission.
