

**Dr Stevanus Wisnu Wijaya**  
**Chairperson of Software Engineering Undergraduate Program,**  
**School of Applied STEM,**  
**Universitas Prasetiya Mulya,**  
**Indonesia**

Dr Stevanus Wisnu Wijaya is a lecturer at Department of Software Engineering, School of Applied STEM, Prasetiya Mulya University. He has more than 15 years of working experience in higher education with several milestones such as successfully establishing a research centre, developing new subjects in information systems discipline, and being awarded several research grants. His research aims to investigate the process of empowerment of Indonesian migrant domestic workers in online communities. The research employed digital ethnography which is an innovative methodology in information systems discipline. He is serving or has served as reviewer for Journal of Global Information Management, Encyclopaedia of Information Science and Technology, Internet Research Conferences 2016, Konferensi Nasional Sistem Informasi and RITEKTRA 2016. His research interests include User Experience, Social media research, persuasive technologies, and cross cultural issues in information systems.
