

Mr Gagandeep Singh Sapra
Co-Founder-Sprout Box,
Co-Founder- Makersbox

Gagandeep Singh Sapra is commonly known as The Big Geek and is a Serial Entrepreneur. He started his first company when he was 11 Years Old, and called it Pilot Engineers. The Company in 1983 offered Data Entry and Computer Automation Services, and Gagan was one of the first few civilians in India to own a Computer.

Gagan by Education is an Electronics Engineer with a Specialisation in Data Communication. In 1995 after his graduation from DY Patil College of Engineering and a Couple of Stints here and there, he renamed Pilot Engineers to System 3 Solutions, only to eventually rename it as SYSTEM 3 NET TECHNOLOGIES PVT. LTD.

In 1996, System 3 became India's first Data Centre company with a Delhi based Boutique Data Centre. System 3 today is a group of multiple companies with Gagan and his wife Harpreet at the helm of affairs as founders and co-founders, with Interests in Data Centre's, Information Technology Infrastructure, Remote Infrastructure Management, Digital Media and E-Commerce. Gagan is Based out of Delhi and is an Active member of Rotary. He is also the President of his Rotary Club in 2015-2016 and can be found actively speaking at conferences and on panels of quite a few discussions around Technology and Entrepreneurship. Other than running his companies full time and his Rotary Efforts, Gagan also writes a weekly technology column for the Hindustan Times News Paper, and For the Open Magazine.
