Vaishali Neotia

Vaishali Neotia is an engineer, entrepreneur, speaker and revolutionist. She is also the cofounder and CEO of Merxius, India's most awarded Augmented and Virtual Reality company. Merxius is an Aegis Graham Bell award winner. It has also received honours from IBM, Tata Elxsi, IET, UKTI Tech Rocketship among others.

Her company Merxius has been featured across media channels for its ground breaking work, including The Hindu, Deccan Chronicle, TOI, Saakshi, Eenadu, Vogue, CNBC among others.

Vaishali is an alumnus of La Martiniere, Osmania University, Indian School of Business & Goldman Sachs 10000 women, Stanford Graduate School of Business Ignite and Startup Leadership Program.

She was selected for a mentorship program conducted by the US State Department with Fortune 500 companies where she was mentored by Ms Dina Powell, Head of the Goldman Sachs.

She is a mentor for various initiatives including Girls in Tech, US Exchange Programs, Sheroes and Startup Leadership. She is a board member of the GS-ISB-10000 women alumni and president of the Hyderabad chapter. She is chairing the Women in Engineering committee at VLSID. She has also been a committee member at Grace Hopper, and member of Fortune Most powerful women, Vital Voices, Startup Leadership, COWE, ALEI and Weconnect International networks.

Vaishali is a speaker at various conferences and educational institutions on technology, innovation, augmented and virtual reality, entrepreneurship and feminism. She was recently invited to represent India at a conference held in Nepal, on changing the business climate of South & Central Asia for women.
