

WHAT'S IN STORE FOR YOU?

GREEN OLYMPIAD IS A WINDOW OF
OPPORTUNITY TO SHARPEN YOUR
ENVIRONMENT QUOTIENT

**REGISTRATION FOR GREEN OLYMPIAD 2023
WILL COMMENCE FROM MAY 2023 ONWARDS**

WHAT IS GREEN OLYMPIAD?

GREEN Olympiad is a leading school-based initiative of TERI. It has since then incorporated several component of environmental education that strive to build upon thematic knowledge while also enhance students' potential to act for the planet. The delivered programs in the field of sustainability transformation are therefore planned and executed to match the aspirations of the academic community, thereby developing students' portfolio as 'agents of change'.

WHY SHOULD STUDENTS PARTICIPATE IN GREEN OLYMPIAD?

Participation in GREEN Olympiad ensures students a chance above the rest to enhance their knowledge on environmental and sustainable development issues and enabling an eco system of knowing about green skills from the confines of the school. There are also avenues to participate in other environmental education projects of TERI.

LIST OF EXISTING PROJECTS

Ocean Matters : Safeguarding our oceans

Project, Ocean Matters: Safeguarding Our Oceans- a joint initiative of The Energy and Resources Institute and U.S. Consulate General Chennai uses citizen science modules of Global Learning and Observations to Benefit the Environment (GLOBE) and the Microplastics Monitoring Protocol Trial (MMPT) to ascertain temperature, salinity, and presence of microplastics in surface waters. The project aims to train and mentor teachers and students from 200 schools in Mumbai, Mormugao, Mangaluru, Chennai, Puducherry and Kochi to conduct on-site experiments and amplify evidence-based awareness to their peers and community.

Youth Climate Conclave

Launched in 2019, the conclave is an annual program implemented in partnership with the Delegation of the European Union to India, GIZ, CEEW, and TERI, with MoEFCC as the nodal Ministry. The program is envisaged as a competitive and educative mode of action, wherein youth from across the country were invited to join hands to address climate change issues.

Planet Calling!

To eliminate ecosystem degradation in India it is important to reach out to the youth and sensitize them about the importance of ecosystems, their functioning and ways in which we can preserve the same. Hence, keeping youth on the forefront, TERI organizes a dynamic and one-of-its-kind outdoor learning program for youth in the age bracket of 16 – 25 years. The camps are organised in TERIgram, Gwalpahari (Haryana) and TERI-RETREAT, Mukteshwar (Uttarakhand).

Programme LEAD

The Environment Education and Awareness (EEA) Area at The Energy and Resources Institute (TERI) has designed a summer programme that enables school students to gain knowledge, enhance their skillsets and obtain access to resources and networks to strengthen their competencies on issues related to environment and sustainable development. The intended outcomes of the programme are to nurture a cadre of environmentally conscious students who will spearhead changes at various levels (individual, peer, family, and community) while concurrently accentuate skill sets and civic life, strengthening their portfolios for targeting further education opportunities.
