

Benefits to students /visitors

- An exposure and enhanced knowledge about the coastal resources locally available and its ecological importance
- Students will be sensitized to the significance of conservation
- They will be more informed and hence as responsible citizens, will be capable of acting as influencers to carry the message further to the society

Benefits to sponsor

- As part of philanthropy, an opportunity to contribute to education and environmental awareness amongst the marginalized school/college students
- Branding opportunity through the banner with company logo on the bus and prizes
- Two employees could enjoy the excursion
- Chance to create positive public relation and raise awareness of your organization as a whole.

Integrated Eco-friendly Practices

The Energy and Resources Institute

Guided tour on coastal resources and sustainable technologies

Tour Highlights

Mangrove Ecosystem

A boat ride to explore Mangrove habitat. Get on-site information on ecological importance and tips on its conservation.

Khazan Ecosystem

A visit to understand working of unique khazan ecosystem-traditional reclaimed low lying marshy lands managed by dykes / sluice gate to regulate the tidal flow.

Salt Production

Demonstration of traditional solar salt production.

Aquaculture Practices

First hand information on aquaculture practices such as:

- Mussel Cultivation
- Crab Culture
- Oyster Culture
- Pearl Spot Cage Farming

Integrated eco-friendly practices

- Kitchen Garden
- Bio-Gas Plant
- Pig and Dairy Farm
