

LIVE with Water

Learn, InVestigate and Experiment

An Indo–Dutch water programme

Have you been to the Sun Dial Park in Delhi? Is there any connection with the Park and the Barapullah Drain? Well yes! The Indo–Dutch water centre is located at this park where scientists are developing innovative cost-effective technologies for cleaning up the Barapullah Drain.

Once again, the Government of the Netherlands and The Energy and Resources Institute (TERI) have devised a school education programme that promotes awareness on wastewater treatment and its usage for health and sanitation, and invite schools to participate in this initiative.

What's in Store?

- Wastewater activity-based curriculum
- Competitions and games
- Online and offline activities
- Knowledge workshops and interaction with experts
- Mentoring and support for action projects/assignments
- Access to resources and IEC materials
- Establish water clubs in schools
- Showcase and disseminate the work carried out in project schools
- International experience and knowledge sharing

Project duration

April 2021–October 2021

Who can participate

Schools with Classes 6–8 from Barapullah region in Delhi
