

DBT-TDNBC-DEAKIN Research Network Across Continents for Learning and Innovation (DTD-RNA)

is organizing a

Webinar on “ELECTROLYSIS OF WATER: THE WAY FORWARD”

28th June 2022 (01:30 PM to 03:30 PM IST)

Time (IST)	Program
01:30 PM - 01:45 PM	Welcome address by - Dr. Pushplata Singh , Director-TERI-Deakin Nano Biotechnology Centre, India
01:45 PM - 02:10 PM	“Electrolyser Technology: The Basics” Prof Subramaniam Chandramouli Assistant Professor Indian Institute of Technology Bombay, India
02:10 PM - 02:15 PM	Q&A Interactive session
02:15 PM - 02:40 PM	“Water Electrolysis: The Role of Nanotechnology” Prof Nainesh Patel Associate Professor Christ University, India
02:40 PM - 02:45 PM	Q&A Interactive session
02:45 PM - 03:10 PM	“Electrolysers: From Lab to Industry” Prof Chinmoy Ranjan Assistant Professor Indian Institute of Science, India
03:10 PM - 03:15 PM	Q&A Interactive session
03:15 PM - 03:20 PM	Concluding Remarks
03:20 PM - 03:25 PM	Group Photograph
03:25 PM - 03:30 PM	Vote of Thanks – Dr Pushplata Singh

Rules for smooth running of the Webinar:

1. All the Panelists and discussants will have full rights to mute/unmute, share presentation and video.
2. Participants may raise their hands to ask question at the end of a presentation.
3. Rights to all participants to share their video will be given for a Group photograph at the end of the webinar.
